9. Equipment

All equipment must abide by Section A - 4 and 8 and CIVL GAP.

This includes CIVL approved flight instruments.

See: <https://www.fai.org/page/civil-xc-instrument-accepted>

Only paragliders following the regulations defined in the CIVL Competition Class (CCC) requirements document Section 7G - 4.0., are permitted to fly.

Radio

As per Section 7A - 4.5.3.

The National Radiocommunication Commission allows the use of different frequencies as long as they are used exclusively in the context of free flight.

Radio receivers are mandatory for all the pilots. Voice activated microphones (VOX operated) are strictly forbidden. Radio transmitters are permitted.

- Pilots' safety frequency is: 149.390.
- Retrieval frequency is: 149.200.
- Emergency frequency is: 149.100.

It is mandatory to have the radio tuned into the pilots' safety frequency while flying. Using a team frequency is allowed

10. Committees

As per Section 7 Common 4.3.1 and 4.4.2.1

Pilots can apply for the Committees until the end of the official registration.

Pilots of the committees will have priority to enter the take-off area at any time.

Task Advisory Committees It will include 3 pilots and the FAI Steward.

Safety Committee

It will include 3 pilots

11. Paragliding Take off Curug Sewu

- Foot launch from hill side
- Launch will take place on 'Bukit Joglo' TO site elevation 450m above sea level

12. Launch

System

Free access through a gate to multiple starting points will be the main launch system in use during this competition.

Ordered launch may be used at the discretion of the MD according to Section 7A 3.3.5

Priority

First task priority will be defined by the rank of participating pilots in the current WPRS ranking. The ranking at the start of the competition will be used as the reference.

Task Committee and Safety Committee is Priority

Relaunch

As per Section 7A 3.3.9

Competitors will be allowed a single launch only

Wind speed at the take-off

The maximum wind speed in which a task shall be flown is 25 km/h, measured at take-off at man's height. Wind speed will be determined by the Meet Director or Safety Director using their own devices. No other measurement will be considered as official.

Launch may be temporarily suspended if the window has been opened and maximum wind speed has been exceeded. If such a case occurs, suspension time will be added to the window open time up to a maximum of 30 minutes of extension.

13. Penalties

As per Section 7A - 6.

14. Safety issues

Assisting injured pilots

As per Section 7A – 5.5.1

Report back

Report back immediately after landing by Telegram (5 minutes maximum).

Pre-flyers and other flyers

As per Section 7 Common - 8.

Free Flyers won't be allowed to take off from the official launch area 60 minutes before the opening of the window and the 60 minutes after window closing time, except with the permission of the Meet Director.

15. Scoring

Scoring formula parameters will be published at the web site and printed on the information boards.

The GPS map datum is WGS 84 and the coordinate format to be used is UTM. The primary source of scoring is GPS logs received from the CIVL Flymaster tracking System.

All other instruments that pilot may have (maximum of two) are considered as backups.

Those instruments must comply with the CIVL accepted instruments list, published on the CIVL web site at <https://www.fai.org/page/civil-xc-instrument-accepted>

It is at the discretion of the Meet Director to allow further units to be presented as a source of the track logs.
